

Technology & Internet Help for Parents

Albemarle Middle School's Parent Technology Night

Stanly County Schools invests in technology to enhance the curriculum and allow our students to be exposed to 21st Century skills. Please come to our first technology open house and learn about what is available for your child at Albemarle Middle School. We will provide basic technology training to help you at home. AMS technology facilitator, Maureen Davis, will provide instruction for basic 21st century technology skills. Classroom teachers will also be available to provide individual assistance.

Please RSVP to Celeste Roundtree at celeste.roundtree@stanlycountyschools.org by Friday, February 18, 2011
